# ROCKFORD

## Garden & Storage

Welcome to Rockford! The place for beautiful garden sheds, pergolas and carports. At Rockford, we believe that the garden should feel like an extension of the home, a place to relax, enjoy nature, and create memories. With a focus on quality and creativity, we design garden sheds and pergolas that stand the test of time, all at a price that feels right.

### High quality

Built with strong materials and careful attention to detail, designed to last for years of outdoor enjoyment and backed by a full 2-year warranty.

### Affordable

Well designed garden solutions at a fair price, without compromising on quality, appearance, or reliability.

### Easy to assemble

Smartly engineered for straightforward assembly, so you can enjoy your garden upgrade quickly and with confidence.

### Low maintenance

Designed to stay beautiful with minimal upkeep, giving you more time to relax and enjoy the outdoors.

## Freestanding pergola

This pergola is made entirely of aluminium and finished in matte anthracite (RAL 7016) or white (RAL 9010). The adjustable louvers in the roof offer the perfect balance between sun and shade. When it rains, the louvers close fully and the smart integrated drainage system guides the water down through the posts. The pergola is strong, weather-resistant and low maintenance. Perfect for years of carefree outdoor living.

## Wall mounted pergola

The Rockford attached pergola creates a sheltered space right next to your home. The aluminium frame and matte anthracite (RAL 7016) louvered roof blend in perfectly with a modern garden. The manually adjustable louvers let you decide how much sunlight or ventilation you want. Rainwater is drained through integrated gutters.

## Accessories

Rockford pergola accessories make it easy to customise your outdoor space. Choose from sidescreen for extra shade and privacy, glass sliding walls for protection against wind and rain, or louvred side panels for a more enclosed and sheltered setup. These accessories are available for both the 3 metre and 4 metre sides of the pergola, including the white pergola.

## Lighting

The Rockford LED lighting set adds warm, atmospheric light to your pergola and is perfectly matched to its size for even illumination. The LEDs are dimmable and adjustable in different colours, so you can easily switch between cosy evening lighting and brighter functional light using the included remote control, which has a range of up to 100 metres. The LED strips click into the existing gutter without visible screws or drill holes and can be removed just as easily.

*Available for all pergola sizes. The price depends on the specific set required for your chosen dimensions.*

## Lagos garden shed

Built from high-quality galvanised steel with a thick, scratch-resistant powder coating, the Lagos is designed to withstand all weather conditions while maintaining its elegant look. The flat roof and sleek grey finish make it a stylish addition to any garden, offering both practicality and visual appeal. The polycarbonate window can be positioned on either side, giving you flexibility to match your outdoor layout. Four included downpipes ensure efficient drainage, while the reinforced panels provide strength and stability for years to come.

What truly sets the Rockford Lagos apart is its versatility. This model can be extended with a matching canopy and optional wall set, creating a covered area for relaxation or extra storage space. Whether you use it for garden tools, outdoor furniture, or as a small workshop, the Lagos offers the perfect balance of function and design.

<b>Inner wall height</b>	190 cm	<b>Material</b>	Galvanised steel

## Faro garden shed

The Faro garden shed with pergola combines the best of both worlds: a secure storage unit and a spacious pergola with adjustable louvres. Perfect for anyone who needs extra storage but also enjoys spending time outdoors in comfort.

The storage unit is fully enclosed with durable WPC side walls in a wood-look finish and features double doors with a secure lock. It's ideal for storing garden furniture, cushions or your BBQ. The roof is made of insulated sandwich panels and sealed for a fully waterproof finish. The attached pergola is based on the proven Rockford pergola frame, with an aluminium structure, integrated drainage system and manually adjustable louvres for sun or shade.

The pergola can also be expanded with Rockford accessories such as a side screen, glass sliding walls or louvred side panels for extra comfort and protection.

<b>Inner wall height</b>	236.6 cm	<b>Material</b>	WPC & aluminium
<b>Fasteners</b>	Stainless steel screws	<b>Frame thickness</b>	1.3 to 1.5 mm
<b>Roof panel thickness</b>	76 mm	<b>Wall panel thickness</b>	28 mm

## Porto garden shed

The Rockford Porto metal garden shed offers a practical and modern storage solution for any outdoor space. Made from 0.4 mm galvanised steel with a thick, scratch-resistant powder coating, it's built to handle all kinds of weather while keeping your belongings safe and dry. The Porto has a sleek pent roof that gives it a contemporary look and ensures efficient rainwater drainage. The polycarbonate window lets in natural light and can be placed on either side, depending on how your garden is arranged. Available in anthracite, grey or light grey, the Porto blends easily with different garden styles.

This shed is easy to assemble with the included stainless-steel screws and plugs, and the two downpipes help with proper water flow. With plenty of room for tools, garden furniture or storage boxes, the Porto is both functional and low-maintenance. A solid and reliable choice for anyone looking for extra space outdoors without the hassle of upkeep.

<b>Inner wall height</b>	190 cm	<b>Material</b>	Galvanised steel
<b>Fasteners</b>	Stainless steel screws	<b>Frame thickness</b>	0.5 to 1.2 mm

## Braga garden shed

The Rockford Braga metal garden shed is a solid and practical choice for anyone who needs extra storage outdoors. The gable roof gives it a classic look, and the strong galvanised steel panels with a thick powder coating make it resistant to all kinds of weather. The Braga is available in grey and anthracite. Both easy to match with different garden styles. The polycarbonate window can be placed on either side, depending on your garden layout. The shed comes with stainless steel screws and plugs for stable assembly, and four downpipes take care of the rainwater.

The Braga offers enough space for tools, garden furniture or equipment, while keeping everything dry and protected. It's easy to assemble, sturdy once built and made to last. Simple, functional and reliable, that's what the Rockford Braga stands for.

<b>Inner wall height</b>	190 cm	<b>Material</b>	Galvanised steel
<b>Fasteners</b>	Stainless steel screws	<b>Frame thickness</b>	0.5 to 1.2 mm

## Freestanding carport

The Rockford aluminium carport is designed for those who want a strong, long-lasting and low-maintenance solution for everyday use. The frame is made entirely of aluminium and assembled with stainless steel fasteners and galvanised steel components, ensuring durability and resistance to rust. This makes the carport suitable for long-term outdoor use in different weather conditions.

The roof consists of 36 mm thick sandwich panels with an insulating core. These solid panels are fully waterproof and provide a rigid and stable construction. Compared to single-layer sheets, they reduce noise from rain and help limit heat build-up and condensation under the roof. This creates a more comfortable space beneath the carport, whether you use it to protect your car, motorbike or other belongings.

Drainage is neatly integrated into the frame for a clean finish. Rainwater flows from the roof into hidden gutters and is then guided down through the posts and base plates. This keeps the structure tidy and ensures efficient water management throughout the year. Thanks to its fully enclosed roof design, the Rockford carport offers maximum shelter and reliable protection against rain, sun and heavier weather conditions.

The standard size of the Rockford carport is 5.3 x 3 metres, providing generous covered space. With the optional extension set, you can expand the carport to a total size of 5.3 x 6 metres.

<b>Material</b>	Aluminium	<b>Roof material</b>	Aluminium
<b>Colour</b>	Anthracite	<b>Finishing</b>	Powder coating matt
<b>Size of the posts</b>	15 x 15 cm	<b>Base plate</b>	19.4 x 19.4 cm
<b>Maximum snow load</b>	100 kg/m <sup>2</sup>	<b>Wind load</b>	95 km/h
<b>Assembly</b>	Self assembly	<b>Assembly time</b>	6 to 10 hours
<b>Weight</b>	410 - 510 kg	<b>Warranty period</b>	2 years full warranty

RRP €4500

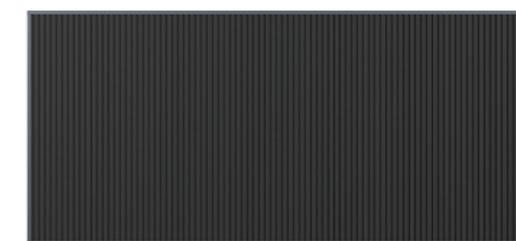

## WPC side walls

With the Rockford 5.3 m solid side wall, you can fully close off one side of your carport. It's ideal when placing your carport along a fence or near neighbouring properties. The side wall is made of low-maintenance WPC in a wood-look finish or anthracite. It is designed for long-term outdoor use and is less prone to warping or cracking compared to solid wood. A practical addition for extra protection from wind and unwanted views.

RRP €1350
